**Subject:** AM2016/23 - 4 yearly review - construction awards

Dear Vice President Hatcher

As you would be aware the CEPU has not made an application to vary any of the awards in the Construction group of awards as part of the four yearly review. Because of this, together with resource constraints and the fact that the other unions with an interest, especially the CFMEU, are more than able to advance and defend the rights and conditions of workers covered by these awards, it is clear the CEPU would not be able to add anything of substance, the CEPU at this stage does not intend to participate further in the proceedings.

We continue to rely on the submissions in reply that we filed on 10 March 2017.

Guy Noble
