Where an employee is expressly directed to work beyond the fifth hour without a lunch break, they will be paid at overtime rates until such time as a lunch break is taken.
- h) Except on infrastructure projects, a "one break" day is standard practice for an 8 (eight) hour day. The break will be of a maximum duration of thirty minutes and the normal finishing time will be reduced by thirty minutes with no loss of ordinary time wages or overtime as the case may be in recognition of productivity increases.
- i) Where a two-break day is sought by the employees, an election of all Employees on the affected site conducted by the Company, Union delegate and/or Union official shall take place to decide whether Employees wish to take 1 or 2 meal breaks. The results of any such election shall be implemented as soon as reasonably practicable and in any case within 3 calendar days by the Company and maintained for the duration of the project. If there is a dispute in relation to meal breaks the dispute settlement procedure shall apply. - l) In the event of a need for some employees to commence work at different times in accordance with clause 19 (a), it is agreed that a minimum of two people will be on site at the same time and that a maximum of up to 15% of the ordinary hours work crew can commence and finish work at different times.

- c) For clarity, 26 RDOs shall be accrued by an Employee in each twelve months continuous service.
- d) No Employee shall accrue RDO's when on leave without pay.
- e) Each day of paid leave taken and any public holiday occurring during any cycle of two weeks will be a day worked for accrual purposes.
- f) Upon commencement of employment, Employees who have not worked a complete ten day/two-week cycle, shall receive pro-rata accrual entitlements for the first RDO or group of RDOs falling after their commencement of employment. Thereafter, for the duration of employment with that employer, RDOs will be paid in full as they occur.
- g) The agreed RDO calendar for the Employer (unless otherwise varied in accordance with this Agreement) is in Schedule I and reflects the agreed scheduling of Designated Long Weekends, Flexible Rostered Days Off, Scheduled Rostered Days Off and Christmas/Easter Annual Leave shutdown for 2022, 2023 and 2024. The agreed RDO calendar for 2025 will be agreed between the parties no later than 31 October 2024.
- h) On the last day of work prior to a Designated Long Weekend, as far as practical, work shall cease by 3.30pm.
- i) The Company and its Employees may agree, where there is a need for genuine operational reasons, work may be carried out on Scheduled RDO/ Designated Long Weekends if the Company first consults with and agrees about the need to carry out work with the majority of the Employees on site. As far as practical given operational requirements, the Company will give employees at least 7 days' written notice of any such need for work to occur so as to ensure appropriate consultation. Such requirements must be based on genuine circumstances.
- j) An Employee may refuse to work on a scheduled RDO (or any substituted day) if the requirement to do so is plainly unreasonable having regard to:
 - (i) the hours of work that will be worked by that Employee in the week of the scheduled RDO;
 - (ii) the number of scheduled RDOs worked by the Employee within the previous six weeks;

- (iii) the Employee's family responsibilities; and
 - (iv) any other special circumstances peculiar to the Employee.
- k) Except on Designated Long Weekends, in addition to accrued entitlements, such work that is not attached to a Designated Long Weekend and where notice is given in accordance with clause 20 (i) shall be paid for at the ordinary time rates of pay, including the daily 'Fares & Travelling Allowance' and any applicable allowances as prescribed by this Agreement.
 - l) On Designated Long Weekends, in addition to accrued entitlements, such work shall be paid for at the rate of 250 percent of ordinary time rates of pay including the daily 'Fares & Travelling Allowance' and any applicable allowances as prescribed by this Agreement and the Employee shall bank an additional RDO over and above the time accrued.
 - m) The Company may direct an Employee to take a RDO if their work site is closed for a site RDO or redirect an Employee to an alternative site.
 - n) RDO's may be banked to a maximum of five (5) days in any 12-month period. Once five RDO's have been banked these must be taken prior to Annual leave being approved. These RDO's may be taken as a group of consecutive days or any other Combination subject to notice by an Employee. If an Employee has more than 5 days of RDO's banked, the Company can insist on them being taken.
 - o) Where a single RDO is requested, an Employee will generally provide forty- eight (48) hours' notice. If the notice is given the employee must be released to have the day off.
 - p) Where a Company seeks to direct an employee to have an RDO in accordance with clause 20 (l) the Company must give the employee 48 hours' notice.
 - q) Where more than one accrued RDO is to be taken on consecutive working days an Employee will provide one weeks' notice.
 - r) Any disputes arising from this clause shall be resolved through the dispute settlement procedure of this Agreement.
 - s) Upon termination of employment, all unpaid RDO accruals will be paid out at ordinary rates.

20.1 Other - Construction Work

- a) Unless varied as allowed above, in general employees shall work 8-hour days (40-hour weeks) and accrue 2 hours per week to achieve 1 rostered day off per 4-week cycle. A new employee will be eligible for an RDO after achieving 7.6 hours RDO accrual. It is recognised that not all employees may want a rostered days off per month and provision is made below for the employee to have discretion whether these rostered days off are taken each month or banked for future use.

- b) The parties agree to balance flexibility with certainty with regard to the use of this RDO accrual.
- c) The following is agreed in respect of rostered days off:
 - (i) Subject to subclause (vii), agreement shall be reached by the Company and Employees as to which day shall be taken as a rostered day *off* when such entitlement is due. It is agreed a Company roster system may apply.
 - (ii) The Company may direct an Employee to take a RDO if their work site is closed for a site RDO or redirect an Employee to an alternative site.
 - (iii) RDO's may be banked to a maximum of five (5) days in any 12- month period. Once five RDO's have been banked these must be taken prior to Annual leave being approved. These RDO's may be taken as a group of consecutive days or any other Combination subject to notice by an Employee. If an Employee has more than 5 days of RDO's banked, the Company can insist on them being taken.
 - (iv) Where a single RDO is requested, an Employee will provide forty- eight (48) hours' notice.
 - (v) Where more than one accrued RDO is to be taken on consecutive working days an Employee will provide one weeks' notice.
 - (vi) When all RDO's are paid out they shall be paid at ordinary time rates of pay.
 - (vii) Any disputes arising from this clause shall be resolved through the dispute settlement procedure of this Agreement.
 - (viii) Subject to subclause (i) it is recognised that working of reasonably long hours, frequently, is common in order to achieve the production requirements of the Company and that in turn the effect of fatigue that this may cause is a serious safety hazard and risk which according to the Safe Work Australia Guide for the Managing the Risk of Fatigue at Work (Nov 2013) may reduce alertness and lead to errors and an increase in incidents and injuries.

Therefore, in mitigating this safety risk and in normal circumstances in combatting the hazards associated with fatigue, without undue disruption to Company productivity, consistent with the Safe Work Australia Guide for the Managing the Risk of Fatigue at Work (Nov 2013) it is recognised and agreed between the Company and the Employees that there is merit in scheduling RDOs and Family Leisure Days in accordance with the Calendars at Schedule I.

21. SHIFT WORK

a) Definitions

For the purpose of this clause:

- (i) **'Rostered shift'** means any shift of which the Employee concerned has had at least 48 hours' notice.
- (ii) **'Afternoon shift'** means any shift finishing after 6.00pm and at or before midnight.
- (iii) **'Night shift'** means any shift finishing subsequent to midnight and at or before 8.00am.
- (iv) **'Short Term Shift'** means successive afternoon or night shifts that do not continue for a full cycle (i.e., 5 shifts for 8-hour shifts)

b) Introduction of Shift work

The Parties acknowledge that the placing of existing employees onto a permanent, ongoing and/or long term shift can detrimentally affect the employees' family obligations and responsibilities, resulting in problems for the employees at home, and their relationships with their partners and children. The Parties also acknowledge that it is a real concern that employees feel pressure to abide by directions to work shift, even though it is against their family interests to do so. Accordingly, an existing employee will not be placed onto a permanent, ongoing and/or long term shift unless it is agreed to by the employee. Prior to seeking agreement, the Employer must provide at least 7 days (or lesser if agreed) written notice to the employee of the request for agreement. The written notice must also state:

- (i) All details of the shift, including hours of work, starting and finishing times, days to be worked, shift loadings and allowances, and any other relevant entitlements;
- (ii) a description of any potential adverse effects on the employees (not including lifestyle related consequences e.g. loss of leisure time);
- (iii) the right for the employee to not agree to work the shift and that no action will be taken against them if they do; and
- (iv) the right for the employees to have the Union or other representative of their choice represent them in respect of the issue and that no action will be taken against them if they do.

Failure to comply strictly with all of the aforementioned requirements shall render any agreement invalid.

- c) Clause 21 (b) does not apply to the introduction of temporary short term shift arrangements, where there is a genuine need for such and where the shifts don't continue for more than five consecutive days.

d) Meal Break

No shift worker shall be required to work for more than five hours continuously without a meal break, to be taken at the company's discretion. Where possible the normal meal break should be as near as practicable to the middle period of duty and be of a paid duration of 30 minutes.

e) Hours

- (i) The weekly ordinary hours of work shall be an average of 36 per week and shall not exceed 144 hours in 28 consecutive days unless a different shift cycle for a section or all the Employees has been agreed between the Company and the majority of Employees.
- (ii) Subject to the following conditions, such shift workers shall work at such times as the Company may require:
- A shift shall consist of not more than 8 ordinary hours. Provided that by mutual agreement between the Company and an Employee or majority of Employees concerned, a shift can consist of up to 12 hours;
 - Such ordinary hours shall be worked continuously except for meal breaks taken at the discretion of the Company.
 - Except at the regular changeover of shifts an Employee shall not be required to work more than one shift in each 24 hours;
 - An Employee shall not be required to work for more than 5 hours without a break for a meal.

f) Rosters

- (i) A shift roster shall specify the commencing and finishing times of ordinary working hours of the respective shifts.
- (ii) Variation of shift rosters
- The method of working shifts may in any case be varied by agreement between the Company and the Consultative Committee, or if there is no agreement, by the Company giving 7 days' notice of the variation to suit the circumstances of the establishment.
 - The time of commencing and finishing shifts once determined may be varied by agreement between the Company and the Consultative Committee to suit the circumstances of the establishment or in the absence of agreement by 7 days' notice of alteration given by the Company to the Employees.

 - For a full-time or part-time employee, at 200% of their ordinary hourly rate.

For clarity, the ordinary hours outside the short-term shift period are paid at the Employee's ordinary rate.

- (iv) The shift premiums in clause 21 (g) (i) (ii) are to be paid for every hour whilst on shift and no deduction to these premiums shall be made for RDO accruals.

h) Rate for working on Saturday shifts

- (i) The minimum rate to be paid to a shift worker for work performed between Friday and midnight on Saturday shall be at the rate of double time. The extra rate is in substitution for and not cumulative upon the shift premiums prescribed elsewhere in this Agreement.

i) Rate for working on a Sunday and public holiday shifts

Except in each case where the time is worked:

- By arrangement between the Employees themselves;
- For the purpose of effecting customary rotation on shifts; or
- On a shift to which an Employee is transferred on short notice as an alternative to standing the Employee off. Provided that when not less than 8 hour's notice has been given to the Company by a relief worker that the Employee will be absent from work and the Employee whom the Employee should relieve is not relieved and is required to continue to work on the Employee's rostered day off the unrelieved Employee shall be paid double time.

Such extra rates shall be in substitution for and not cumulative upon the shift premiums.

k) Superannuation on Shift Allowance

The shift allowance payments in (f) to (i) above constitute ordinary time earnings and as such are subject to superannuation guarantee payments. The overtime allowance in (j) is not ordinary time earnings and is not subject to the superannuation guarantee payment.

l) Rest period after shift work

- (i) A shift worker, when going on shift, changing shift, or returning to day work shall have at least 10 consecutive hours off duty on completion of the day work, shift and any overtime and shall not suffer any loss of pay for any ordinary time, or any ordinary shift time as is appropriate in the circumstances for any such off-duty period.
- (ii) Provided that, if on the instructions of the Company, such an Employee resumes or continues to work without having had such 10 consecutive hours off duty, the Employee shall be paid at double time rates until released from duty and shall then be entitled to 10 hours off duty and shall not suffer any loss of pay for any ordinary time, or any ordinary shift time as is appropriate in the circumstances, for any such off duty period.

22. REASONABLE ADDITIONAL HOURS & OVERTIME

- b) Employees will be required to work reasonable additional hours to meet the operational requirements of the Company and the staffing and productivity requirements of each job, project and/or client. In determining whether additional hours that an Employee is required or requested by the Company to work are reasonable additional hours, all relevant factors must be taken into account. Those factors may include, but are not limited to, the following:
 - (i) any risk to the Employee's health and safety that might reasonably be expected to arise if the Employee worked the additional hours;
 - (ii) the Employee's personal circumstances (including family responsibilities);

 - (iv) any notice given by the Company of the requirement or request that the Employee works the additional hours;

 - (vii) The Employee's hours of work over the 4 weeks ending immediately before the Employee is required or requested to work the additional hours.
- c) An Employee may refuse to work additional hours in circumstances where they deem the working of such additional hours would be unreasonable.
- d) All additional hours worked by Employees beyond an average 36 hours each week and all hours worked outside the span of ordinary hours shall be classed as overtime and paid in accordance with this Clause.
- e) For all work done outside ordinary hours by a full-time or part-time employee, except on public holidays, the rates of pay will be 200% of the ordinary hourly rate.
- f) For all work done outside ordinary hours by a full-time or part-time employee, on public holidays, the rates of pay will be 250% of the ordinary hourly rate.

- h) The timing, staggering, or combining of rest/crib/meal breaks shall be co-ordinated on a site by site basis by mutual agreement between the company and the majority of Employees affected on each site. For work done during meal hours and thereafter until a meal break is allowed, double time rates shall be paid.
- i) If an Employee works 2 hours or more of overtime, after working ordinary hours the Employee shall be allowed a meal break of 20 minutes which shall be paid for at overtime rates at their normal finish time. The Company and Employee may agree to any variation of this provision to meet the circumstances of the work in hand provided that the Company shall not be required to make any payment in respect of any time allowed in excess of 20 minutes.
- j) The Employee and the Company may agree in lieu of a 20-minute meal break under paragraph (i) that the finishing time will be reduced by twenty minutes with the Employee still to be paid as though they took the meal break at overtime rates and no loss of overtime.
- k) An employee required to work overtime for 2 hours or more without being notified on the previous day or earlier that the employee will be required to work must either be supplied with a meal by the Company or be paid the meal allowance as set out in Schedule C for the first meal and for each subsequent meal.

- m) Where overtime is worked, Employees shall have a rest period of 10 consecutive hours between work of successive days without loss of any pay for ordinary working time occurring during such rest period. Where they do not receive such a rest period, they shall be paid at double time rates until they are released from duty and shall then be entitled to be absent from work for a rest period of 10 hours without loss of any pay for ordinary working time occurring during such rest period.

SCHEDULE F – HEAT, HUMIDITY & SUN AWARENESS

The parties recognise that prolonged exposure to direct sunlight, high temperatures and high levels of humidity may create a risk to health and safety of workers if appropriate precautions are not taken.

The Company will implement the procedures set out within Clause 48 – Inclement Weather Procedure to address issues when they arise and will implement risk management processes as and when required to mitigate the effects of inclement weather and to ensure the Health and Safety of employees is maintained and to allow work to continue without risk to employee's health and safety.

Control Measures which may be implemented

At inductions and again specifically when the weather conditions require at on site tool box meetings the Company will provide information and instruction to increase the awareness of employees of the safety issues related to heat, humidity and working in direct sunlight and of specific control measures that may be implemented by the Company and the personal responsibilities of the Employees.

- They should regularly monitor their skin and look out for new or unusual spots or sores that won't heal, or a spot or mole that has changed size, shape, or colour.
- They should promptly seek professional medical attention if they notice any new or unusual spots or sores that won't heal, or a spot or mole that has changed size, shape, or colour.

SCHEDULE G – APPRENTICE SUPERVISION POLICY

Levels of supervision

Apprentices need varying levels of supervision as they acquire skills and gain confidence. This supervision falls into three categories: direct, general, and broad.

Apprentices begin learning a particular skill under direct supervision. When they achieve competence in a skill, they move to general supervision for that skill.

These decisions should be made in consultation with the apprentice. It is important that an apprentice is able to voice their confidence or uncertainty in regard to their abilities and different aspects of electrical work.

Direct supervision

Direct supervision is one-on-one supervision.

This is essential for every new apprentice and must be maintained during the training of a particular skill, until the apprentice has demonstrated their competence in that skill.

The supervisor shall provide specific and constant guidance to the apprentice, closely liaising and monitoring the apprentice, and continually reviewing the work practices and the standard of their work.

The supervisor shall:

- remain on the same work site as the apprentice;
- provide instruction and guidance to the apprentice, and directly observe all aspects of the apprentice's work to ensure work is performed safely and correctly;
- be readily available and able to communicate directly with the apprentice at all times;
- remain within audible range (earshot) of the apprentice.

General supervision

General supervision is a stage that an apprentice enters as they gain skills that allow them to function more independently. The apprentice will move from direct supervision to general supervision only in the skills where they have demonstrated competence.

As part of general supervision, the supervisor shall provide the apprentice with instruction and direction for the tasks to be performed, with progressive checks and relevant testing to be carried out while the work is being undertaken.

The supervisor shall:

- remain on the same work site as the apprentice;

- provide instruction and guidance, and observe all aspects of the apprentice's work to ensure work is performed safely and correctly;
- be readily available to communicate directly with the apprentice when required;
- be readily available in the immediate work area.

Broad supervision

The apprentice at this level of supervision must be able to demonstrate electrical knowledge and skills relevant to the task. The apprentice will not require constant guidance from the supervisor whilst performing familiar tasks. The supervisor shall consult with the apprentice regarding the tasks being undertaken, and provide instruction and direction as required.

The supervisor shall provide periodic face to-face contact throughout the day, or work cycle, to check that the apprentice's work complies with technical and safety requirements.

Conditions for carrying out isolation procedures

In all cases, the supervisor shall be responsible for carrying out isolation procedures, confirmation of isolation, compliance testing and commissioning/energisation.

Apprentices should have the opportunity to carry out these tasks in the final stages of their apprenticeship, but only under direct supervision and under the conditions below.

- A 3rd stage apprentice may carry out basic (not live) fault finding under direct supervision.
- A 4th stage apprentice may carry out basic (not live) fault finding under general supervision only if they have been deemed competent to do so. A 4th stage apprentice may carry out advanced fault finding and confirmation of isolation under direct supervision.

Ratio of supervisors to apprentices

A Company of electrical workers should ensure that the ratio of supervisors to apprentices is 1:2 under direct supervision and 1:4 under general supervision.

- One supervisor is to supervise no more than two apprentices under direct supervision at any one time.
- One supervisor is to supervise no more than four apprentices under general supervision at any one time.

Level of guidance

The level of guidance required for an apprentice is expected to gradually diminish from direct supervision through to general instruction to a broad direction over the stages of the apprenticeship, as competency is attained and demonstrated by the apprentice. The level of competency directly relates to the type of work being carried out.

For example; a 4th stage apprentice, who generally works on domestic installations, would not necessarily be competent to work at the same level on a construction site, or a large industrial site, and may require additional direct supervision on the requirements when introduced to these unfamiliar work sites.

Apprentice competency

Criteria essential to assessing an apprentice to be competent in a task includes:

- awareness of safety requirements;
- performing the job to an appropriate technical standard;
- understanding workplace policies and procedures;
- dealing with everyday problems that may occur;
- understand why a task is performed in a certain way or sequence;
- being able to apply skills consistently.

Elements of effective supervision

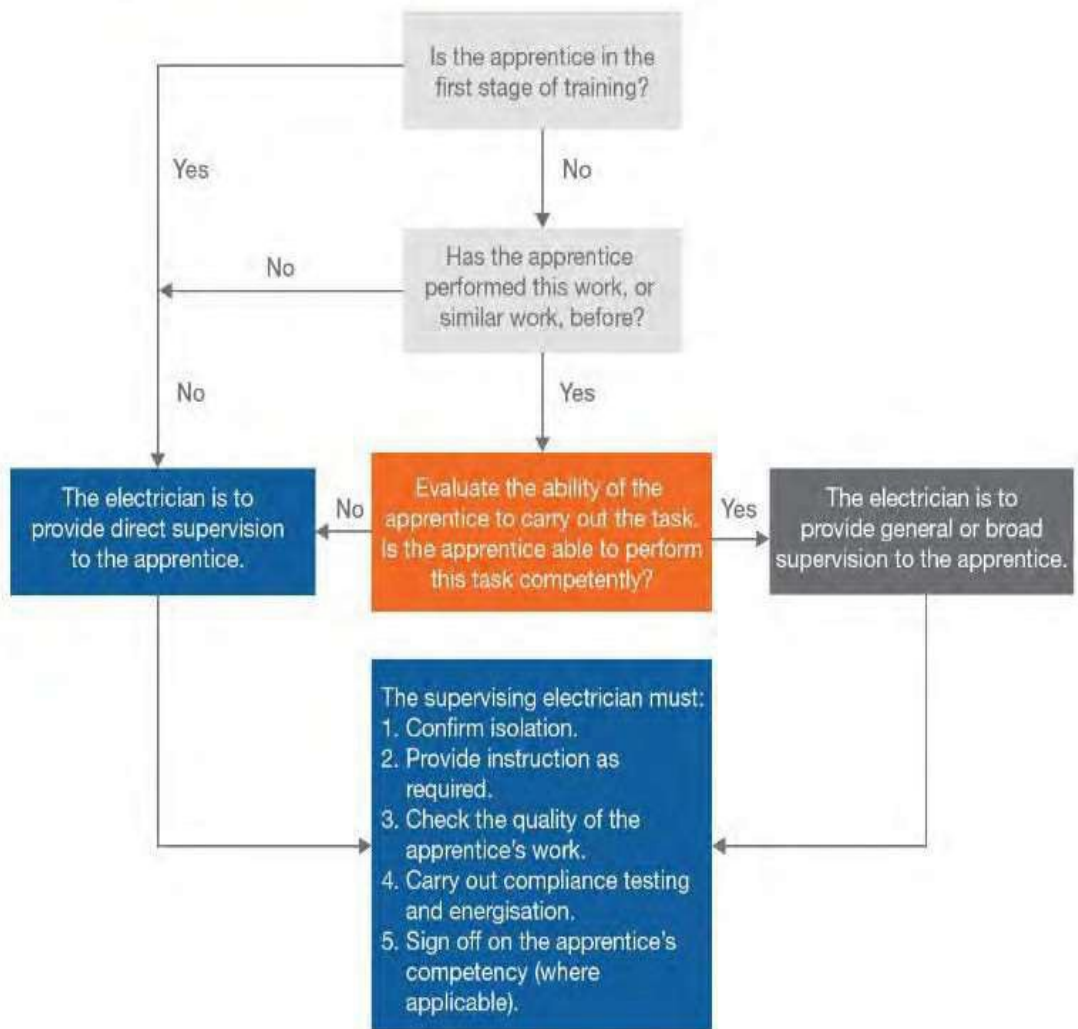

An effective workplace supervisor:

- provides a safe and supportive workplace;
- trains the apprentice in safe work practices;
- provides technical training;
- acts as a positive role model;
- manages the apprentice's training needs;
- helps the apprentice develop problem solving skills;
- provides regular feedback and encouragement; and
- discusses and develops on-the-job training with the apprentice.

General guidance: supervision levels

The Work Health and Safety Act 2011 places a duty of care on Companies to provide such supervision to employees as necessary to enable the employees to perform their work in a manner that is safe and without risks to health. The use of the above requirements in no way removes or limits the Company's duty of care under Work Health and Safety legislation in providing a safe workplace.

SCHEDULE H – DISCRIMINATION & SEXUAL HARASSMENT

The aim of the Company is to provide a work environment free from all types of discrimination and sexual harassment for all Employees fully supporting the Sex Discrimination Act 1984 and the Anti-Discrimination Act 1977.

The Company fully complies with all applicable requirements of the federal and state legislation on discrimination, including, but not limited to discrimination on the grounds of religion, national origin, marital status, gender, disability, or age.

There is an expressed commitment by the Company to prohibit discrimination against applicants or Employees in employment, promotion, demotion, transfer, recruitment, recruitment advertising, stand downs, termination, rates of pay and other forms of compensation, and selection for training.

Sexual harassment is unacceptable behaviour, which is not asked for and can take many forms, obvious or subtle, direct, or indirect. It can include, but is not limited to display of sexually suggestive, offensive degrading material, computer screen savers and e-mail, sexually suggestive looks and comments, wolf whistling or physical contact and indecent assault.

Any alleged complaint of discrimination or sexual harassment will be handled with utmost confidentiality, fairly and expeditiously, for all those involved. Ultimately, the responsibility for discrimination and sexual harassment matters lies with senior management of the Company.
