13. HOT WEATHER GUIDELINES

- 13.1 Under this Agreement when air temperature reaches
- (a) 35°C; or
 - (b) 29°C and 75% humidity or more, after three hours from commencement of each trades shift in southeast Queensland it shall constitute inclement weather (Extreme Hot Weather).
- 13.2 This definition will be subject to review in other regions. This clause must be incorporated in the Employer's OHS Procedures for all applicable Projects.
- 13.3 Before finishing work, Employees must be alerted to possible Extreme Hot Weather forecasted for the following day by the PCBU, Site manager, and HSRs. This will allow

preparation for works to be modified to reduce this category of heat exposure in accordance with clause 13.1. For forecasting, planning and guidance the Bureau of Meteorology (BOM) shall be used for weather observations. Monitoring heat on the day will be done with a calibrated wet bulb thermometer

- 13.4 When Extreme Hot Weather is forecasted for the following day, the Employer's Site Manager, WHS Committee and WHS Representatives will consult and determine what actions are to be taken to reduce exposure and modify the program and/or workload prior to the Extreme Hot Weather, which may include:

- (a) Where the temperature reaches 35°C, there will be an orderly cessation of work and preparations for safe completions of critical tasks currently under way and/or applicable modifications to the program and workload as described in clause 13.4.
 - (b) where the temperature is 29°C and 75% humidity or more after three hours from the commencement of a shift, there will be an orderly cessation of work and preparations for safe completions of critical tasks currently under way and/or applicable modifications to the program and/or workload as described in clause 13.4.
- 13.6 If there are areas of the workplace that are below any Extreme Hot Weather, work shall continue as normal in those areas, Employees unable to work elsewhere may be transferred to these areas below the extreme levels if work is available. Employees may walk a reasonable distance through areas effected by extreme hot weather to and from amenities, provided it does not pose an imminent risk to their health or safety. The primary objective is to ensure that there is no reasonable concern for an Employee undertaking the work of an imminent risk to their health or safety,
- 13.7 Extreme Hot Weather shall be measured on site by a temperature gauge compliant to Australian Standards and shall be undertaken in accordance with the manufacturer's operating instructions. The Parties agree that a measurement taken using the Wet Bulb in Globe Temperature index mode will not be used. Wet bulb thermometers will be used in temperature mode and then humidity mode separately and combined will be an acceptable method of measuring extreme hot weather. It is the responsibility of the PCBU implement these guidelines.
- 13.8 The PCBU shall supply a Wet Bulb Thermometer for each yard.

14. AIR QUALITY PROCEDURE

Definitions

Acceptable Air Quality

- 14.1 Air Quality Index (AQI) is categorized as good to extremely poor by the Queensland Department of Environment and Science.
- 14.2 PM2.5 are tiny particles in the air that reduce visibility and cause air to appear hazy when levels are elevated. They can be carcinogenic, as advised by the World Health Organisation. Where possible, PM2.5 readings shall be the preferred test for acceptable air quality.

Measuring of air quality

- 14.3 Measuring of air quality will be done through the Department of Environment and Science web site (des.qld.gov.au) using the closest station to the work site (see instruction below).
- (a) Click on environment
 - (b) Go to Our Environment and click on air
 - (c) Click on live air data
 - (d) Scroll down and view closest Station to the job site
 - (e) Refer to Air Quality Procedure (14.9 below)

Bushfire smoke

- 14.4 Bushfire smoke is a mixture of different-sized particles, water vapor and gases, including carbon monoxide, carbon dioxide and nitrogen oxides. During bushfires and similar events, large amounts of finer particles are released that are small enough to breathe deep into the lungs and can cause adverse health effects. These chemicals are known “Cancer Causing Agents”
- 14.5 During bushfires and similar events, the Employer must verify that their work area is within a safe range for air quality as defined by the Queensland Department of Environment and Science.

Air Quality Procedure

- 14.6 The PCBU, Site Manager and WHS Reps must alert workers the day before extreme or excessive poor air quality conditions are expected.
- 14.7 After three consecutive hours of POOR air quality above 50µG per/m³, there will be an orderly cessation of work and preparation for safe completion of critical tasks.
- 14.8 Once the air quality index reaches 75µG per/m³ there will be an immediate cessation of work with only safe completion of critical tasks allowable.
- 14.9 Inclement weather provisions of the Award shall be invoked. To be clear, all the provisions contained in clause 24 of the Award shall apply in instances of poor air quality, including 24.14.
- 14.10 All air quality related incidents are to be reported to the employer, site safety coordinator, WHS Committee and any relevant employee representative`s immediately.

Fit testing

- 14.11 The accepted method of fit testing of RPE is Quantitative fit testing.
- (a) Quantitative fit testing will only be done with reusable half face RPE. It is an essential step in the RPE selection process and allows a PCBU to determine if the specific make and model of RPE is a suitable size, fit and comfort for the worker who is going to use it.

- (b) Quantitative fit-testing is a much more effective way to fit-test RPE, as it doesn't depend on tasting or smelling a test agent. For this reason, the PCBU must make sure quantitative fit-testing is used for all RPE.

15. INCLEMENT WEATHER

15.1

15.2 The parties are committed to working together to minimize the impact of inclement weather. The employer will ensure reasonable allowance is included in contracts taking into account historic weather conditions and forecast rainfall.

15.3 Inclement weather means the existence of rain or abnormal climatic conditions (whether hail, extreme cold, high wind, severe dust storm, extreme heat (as defined in clause 13), poor air quality (as defined in clause 14), or the like or any combination of these conditions) where it is not reasonable or it is unsafe for employees to continue working in those conditions.

15.4 The employer or its representative, when requested by the employees or their representative, must confer within a reasonable time (which does not exceed 60 minutes) for the purpose of determining whether or not the conditions referred to in clause 15.2 apply.

15.5 The time work stops due to inclement weather and the resumption of work after a period of inclement weather has ended will be recorded by the employer.

15.6 When inclement weather conditions exist, an affected employee is not required to start or continue to work where it is unreasonable or unsafe to do so. In cases where emergency work is required or it is necessary to complete a concrete pour already commenced to a practical stage, work may occur or continue provided that such work does not give rise to a reasonable concern on the part of an employee undertaking the work of an imminent risk to their health or safety.

APPENDIX 4 – IMPAIRMENT POLICY

1. PRINCIPLES

- 1.1. The health, wellbeing and safety of employees are of paramount importance to the employer, employees and their Unions. This policy is part of a broad work, health and safety (WHS) program to secure the highest level of health and safety in the workplace.
- 1.2. The policy adopts a WHS approach that involves identifying, assessing and controlling all workplace hazards, using the hierarchy of control, and then reviewing these controls to ensure ongoing improvements.
- 1.3. The focus of this policy is on the WHS risks associated with impairment and should be read in conjunction with other company policies concerning health and safety, particularly in relation to fatigue management, risk management and safe systems of work.
- 1.4. This policy has been compiled in a manner that is non-punitive and supportive of employees. This policy shall not be used in a discriminatory manner. Anti-Discrimination Law protects against discrimination on the basis of addiction and may also protect against discrimination on the basis of impairments caused by drug and alcohol addiction or use.
- 1.5. The policy and procedures adopt a peer based intervention approach based on fairness and equity for all employees.

2. SCOPE

- 2.1. This policy will apply to all employees (including managers and supervisors), contractors and labour hire staff. The policy applies to these groups at all times when they are engaged in company business, whether on or off site and when driving company vehicles.

3. STRUCTURE

The Impairment Policy is categorised in order with the intended implementation:

- 3.1. Training & Awareness
 - (a) Extensive research has shown training and awareness of impairment related issues provides the most effective means of behavioural change and encourages better decision making. The two types of training in accordance with this policy to do this are:
 - (i) Workplace Impairment Training (WIT) - all workers onsite will do this training;

11. ROOM REQUIREMENTS

- 11.1. Each workplace shall have a room nominated for use to undertake drug and alcohol testing consistent with this procedure. This room will not normally be the first aid room at a workplace unless a workplace has multiple first aid rooms and the use of a first aid room for the purpose of drug and alcohol testing will not affect the ability of the workplace to respond to a first aid incident.

 - (d) The frequency of testing and the number of workers selected shall be increased in line with the escalation below where test results meet the criteria indicated:

Number of Workers	Criteria	Action
Less than 30 workers at a workplace	Confirmed positive results in 2 consecutive tests at the same workplace	Testing of 20% of workforce
30-100 workers at a workplace	Confirmed positive results for 3 or more workers in 2 consecutive testing rounds at the same workplace	Testing of 10 workers

13. PRESCRIBED MEDICATIONS

- 13.1. Workers that are taking Prescribed Drugs or Pharmacy Only Drugs that they believe could register a positive test result should inform the Authorised Testing Agent prior to undergoing any requested test
- 13.2. If a Worker fails to declare that they are taking Prescribed Drugs or Pharmacy Only Drugs before being tested and they record a Non Negative Result Initial Test result, a post test declaration will not be considered relevant to the result and the Worker will be excluded from duty for the remainder of the shift, subject to a Confirmatory Test.
- 13.3. Workers who record a Non Negative Result Initial Test result will be excluded from their work duties and the workplace until a Confirmatory Test result has been received.
- 13.4. If that confirmatory result is a Positive Result Confirmatory Test, then:
 - (a) The terms and conditions of the applicable industrial agreement shall be observed in relation to consultation and consequence management action.
- 13.5. When a confirmatory test result is negative or the result recorded is less than the target level or is consistent with a level expected from therapeutic use of a Prescribed Drug or Pharmacy Only Drug, which was advised by the Worker, then the test result shall be considered a Negative Result Initial Test for the purpose of any consequence management action
- 13.6. Where a Worker is excluded from the workplace as a result of a Non Negative Result Initial Test for Drugs and the confirmatory test is positive for a Pharmacy Only or Prescription Drug, the following factors would normally be considered in deciding when it is appropriate to allow a worker to return to the workplace and/or return to normal duties:
 - (a) Whether the worker declared the medication during the pre-test interview with the Designated Collector or Authorised Testing Agent;
 - (b) The level of the medication detected is consistent with therapeutic use;
 - (c) Written advice from the worker's doctor advising that the medication is required to treat a medical condition; and
 - (d) The medication will not affect the worker's ability to perform the inherent requirements of their job - i.e. they are fit for work.

14. SPECIAL CIRCUMSTANCES FOR PRESCRIPTION MEDICATION

- 14.1. A Worker participating in a treatment plan for a medical condition, managed by a Registered Medical Practitioner and involving a Prescribed Drug/Only Drug could result in a Non Negative Result Initial Test if they are selected for Drug and Alcohol testing.
- 14.2. If in the above circumstance a Non Negative Result Initial Test occurs, and provided that the Worker has:
 - (a) Declared their use of the Prescribed Drug/Pharmacy Only Drug in a letter less than 12 months old from a registered medical practitioner before the commencement of testing; and

- (b) Declared their use of the Prescribed Drug/Pharmacy Only Drug to the Authorised Testing Agent or Designated Collector before the commencement of testing;
 - (c) Then the Non Negative Result Initial Test result shall be recorded at the workplace and a second sample of oral fluid shall be taken and sent for confirmatory testing. The worker shall be allowed to remain at work but must be precluded from high risk construction work activity until the result of the confirmatory test is known.
- 14.3. Where the results of the confirmatory test identify the Prescribed Drug/Pharmacy Only Drug declared and the levels are consistent with that prescribed by the prescribed medical practitioner, then a Negative Result shall be recorded and no results retained.
- 14.4. Where the results of the confirmatory test identify the Prescribed Drug/Pharmacy Only Drug declared and the levels are not consistent with that prescribed by the Registered Medical Practitioner or another drug(s) type is recorded then a positive result confirmatory test shall be recorded.
- 14.5. Where the Worker has not provided both declarations contained within this part then the Worker shall be excluded from the workplace until the results of the confirmatory test are known.

15. TESTING RESULTS

15.1. Alcohol

- (a) A worker who returns a negative alcohol test will be allowed to return to work with no record of the test kept. A worker who returns a positive result for alcohol (above 0.00mg/ml) will be deemed not fit work and will not be permitted to return to work;
- (b) When a worker tests positive to alcohol in their system the workers blood alcohol concentration (BAC) may be decreasing or it may be increasing. In the interests of safety the Workers will be directed to remain within the testing vicinity and they will be re-tested no sooner than 60 minutes after the original test;
- (c) If the second test result is 0.000% the test will be regarded as negative and the Worker may return to normal duties. A Positive Result Confirmatory Test will not be recorded in these circumstances;
- (d) If the later confirmatory test indicates a BAC of greater than 0.000% a Positive Result Confirmatory Test will be recorded;
- (e) Alcohol testing shall be carried out by an Authorised Testing Agent agreed upon by the PC/Employer and the Union. The following steps shall be undertaken:
 - (i) Details of the identity of the Worker to be tested shall be recorded including the workplace name, work area and their employer will be listed on a drug and alcohol testing record form by the independent Authorised Testing Agent:
 - (ii) Workers with a BAC of greater than zero (greater than 0.000%) shall discontinue any work activities and shall be directed to undertake a second test sixty (60) minutes after the first test and the results recorded on a Drug and Alcohol Testing record Form by the independent Authorised Testing Agent:
 - (iii) Where the second test indicates a level greater than 0.00% BAC the Worker will be further excluded from work duties for the remainder of the shift;
 - (iv) Where a Worker is to be sent home using their own transport this shall only be permitted if the blood alcohol concentration test result is below that prescribed

by applicable road transport legislation and has been determined as not rising for that Worker.

- (v) Note: If the Worker's blood alcohol concentration result is greater than or equal to 0.05% BAC, all reasonable assistance is to be afforded to ensure an affected Worker can make their way from the Workplace to a safe location without harm (e.g. taxi, lift from a friend or Supervisor).
- (vi) Contractors will be responsible for the management/arrangements for their employees in accordance with their own employment arrangements.
- (vii) Any Worker that is excluded from work duties for the remainder of a shift or sent home, must, before commencing work for their next shift undertake an alcohol breath test prior to commencing that shift. If the results are negative (0.00mg/ml) the Worker shall be allowed to commence work. If the Worker returns a positive test they will not be allowed to commence work, hence page 12 of this document, 15.1 Alcohol- d) will apply.

15.2. Drugs

- (a) A worker who returns a negative test will be allowed to return to work. A worker who returns a non-negative test result from their initial test (equal to or above the relevant cut-off levels of the substances referred to in AS 4760) will be deemed not fit for work and will not be allowed to return to work. (Benzodiazepine level to be provided by the prescribed testing laboratory);
- (b) Drug testing will be administered by the collection and analysis of an oral fluids specimen (saliva). Before conducting a drug test, the process used by the independent Authorised Testing Agent must be explained to the Worker providing the saliva sample;
- (c) Collecting and testing of saliva specimens shall be carried out by an Authorised Testing Agent, agreed upon by the PC/Employer and the Union, and confirmatory testing is to be carried out by a NATA accredited laboratory;
- (d) A Confirmatory Test will be required where a Non Negative Result Initial Test is recorded at the initial test. The handling of specimens taken for confirmatory testing is detailed in the process used by the Authorised Testing Agent and must be completed to Australian Standards;
- (e) Any worker attending the workplace under the influence of drugs or alcohol will be prohibited from entry. A worker returning to the workplace following their exclusion for a Positive Result Confirmatory test will be required to submit to a drug and alcohol test prior to commencing work and receive a Negative Result Initial Test for Drugs or Alcohol prior to commencing work.

16. FORMS OF TESTING

16.1. Self-Testing

- (a) The PC/Employer shall be required to provide sufficient self-testing facilities for alcohol and/or drugs for up to 10% of the workforce;
- (b) Where self-test facilities are made available voluntary or self-testing for alcohol will be available for Workers prior to presenting for work. A wall mounted breathalyser (optional) will be located in an area that provides for discrete privacy for the worker, whilst completing the test so the test results cannot be inadvertently observed and disclosed to other parties;

- (c) A Worker undertakes self-testing at his/her own accord; therefore, no test details are recorded. However, all Workers have obligations under the Work Health and Safety Act or equivalent occupational health and safety or occupational safety and health legislation in other States or Territories and must not wilfully place at risk their health and safety or the health and safety of other Workers or people at the workplace by commencing work if they believe they're impaired.

16.2. Random Shift Testing

- (a) In terms of Random Shift Testing it is imperative that the PC/Employer and the Union do not know on what day, or at what time the Authorised Testing Agent will conduct the tests;
- (b) It is a condition of entry for all Workers at any workplace to comply with any request to participate in random Drug and Alcohol testing as a condition of employment or contract. This means that all Workers attending or seeking to attend a workplace will be eligible for testing;
- (c) Testing for Alcohol or other Drugs for Workers shall be mandatory and will be undertaken at any time throughout the Worker's hours of work (including overtime) or at any time whilst at the workplace;
- (d) Individual Workers will be selected for drug testing using a simple random selection process. A random draw will be conducted using an Authorised Testing Agent independent software to randomise the selection of Workers for testing;
- (e) The random selection process includes the selection of Workers from across the entire workplace subject to the testing;
- (f) A Worker selected for testing will be required to present themselves for testing within a reasonable time. Random shift testing shall be conducted in a room which provides for privacy for the selected worker during testing; the requirements for this room are outlined in the Room Requirements section of this policy.

16.3. For Cause Testing

- (a) An employer/supervisor may only request an employee to undertake for cause testing if:
 - (i) The employee has been involved in an accident or incident, or had the potential to, cause:
 - (ii) serious and major damage to mobile plant or property; or
 - (iii) an injury to themselves or other individual(s);or
 - (iv) Participation in a relevant and specific industry focus area when the worker is undertaking High Risk Work as identified by the employer and consistent with OHS legislation. Workers will be selected for testing using a random selection process nominated by the employer following a consultation process in line with OHS legislation.

16.4. Post Incident Testing

- (a) After the occurrence of a significant incident/event at a workplace, all Workers involved in the incident may be required to undergo an initial Drug and Alcohol test.

- (b) Where a Worker(s) is to be tested following a significant incident/event they shall be supervised by an Employer Representative and Employee Representative continually from the time of the incident until they have completed all testing required.
- (c) Post Incident Testing will be conducted as soon as practical after the incident/event and when it is safe to do so.
- (d) An injured Worker who requires immediate medical attention may only be tested when it is appropriate and safe to do so. This will be determined by the Construction Manager, the HSR, Delegate and the relevant PIA in consultation with the attending medical practitioner. In such cases, where testing can be conducted while under medical care, a saliva testing process will be used.

16.5. Reasonable Concern Testing

- (a) An employer may only request an employee to undertake reasonable concern testing if the following criteria are met:
 - (i) An observable phenomena occurs, which is:
 - a. the direct observation of the employee of use of, and/or the physical behavioural symptoms of being impaired by, alcohol; and/or
 - b. Unusual and/or inexplicable actions by the employee; or
 - (ii) There is evidence that the employee is involved in the use or possession of alcohol and/or other drugs while working; or
 - (iii) The employee has breached safety precautions or procedures.

16.6. Testing of Minors

- (a) A letter of consent contained within the work experience and student placement procedure shall be signed by the parent or guardian of any worker who is a minor seeking to access a workplace where the Impairment Policy is in place, as a condition of entry to that workplace. Alternatively, an equivalent letter signed by the parent or guardian can be provided through the minor's employer/host employer.
- (b) Where a minor is selected for testing and:
 - (i) A letter of consent is held, then the provisions of this procedure shall apply; or
 - (ii) Where a letter of consent is not held, every effort will be made to contact the minor's parents/guardians to get verbal consent to participate in the testing procedure. If consent is given then the normal testing procedures will apply, if contact cannot be made and/or consent is not given then the minor will be excluded from any high risk activities or potentially excluded from site until consent is given.

17. REFUSAL TO TEST

- 17.1. If a Worker refuses to participate in workplace Drug and Alcohol testing the following will apply:
 - (a) The Employer, will inform the Worker and the workers chosen representative, that the refusal will have the same consequences as a non-negative result, i.e. that the employee will be deemed to be unfit for work due to the presence of alcohol or drugs;
 - (b) If the worker still refuses, the Employer and the PIA, shall consult with the worker and the workers chosen representative, regarding the requirements, process and

consequences of refusing to test and encourage them to partake in the test. This would be the second request to be tested;

- (c) If the worker still refuses, the refusal will be treated as a confirmed positive result, and will be subjected to the relevant consequences of such. All reasonable assistance is to be offered to ensure the employee can make their way from the workplace to a safe location without harm (i.e. taxi, lift from a friend or fellow worker). An agreed leave of absence arrangement is to apply for the duration of their absence.
