

Exposure draft: Example GenAI section for Commission forms

Use of GenAI

Generative artificial intelligence (GenAI) includes ChatGPT, Claude, CoPilot and Gemini.

You must tell us if you used GenAI in preparing this application. You must also check all details in this application and ensure they are correct and relevant. This includes ensuring that:

- all references to facts or evidence are correct and the facts or evidence exist
- all cases, legislation, textbooks and articles referred to exist and stand for the legal positions attributed to them, and
- all extracts or quotes are correct and are attributed to the right source.

If you do not do this, the Commission might dismiss your application or order you to pay costs.

See our [insert hyperlink: *Guidance note: Use of Generative Artificial Intelligence in Commission cases*] for more information.

Did you use GenAI in preparing this application?

Yes

No

If you answered **Yes**—you must check all details in this application and ensure they are correct and relevant to your application. You must also confirm you have done this:

- I have checked that all references to facts or evidence in this application are correct and the facts or evidence exist
- I have checked that all cases, legislation, textbooks and articles referred to in this application exist and stand for the legal positions attributed to them
- I have checked that all extracts or quotes in this application are correct and are attributed to the right source
- I have checked all other details in this application and I confirm they are correct and relevant to my application
