The Research reference list is published as a central depository of references to books and research papers that may have relevance to New Approaches. The books and papers selected for publication in the Research reference list have been compiled by staff of the Commission and do not reflect the views of the Commission on the quality or relevance of the references published. The Research reference list should not be considered to be exhaustive.

The Research reference list was workshopped by staff of the Commission in the Workplace and Economic Research Section prior to finalisation. The books and papers referenced, however, remain the responsibility of the authors of those papers.
