Subject: RE: AM2017/56 Sugar Award 2010

Dear Parties,

The Deputy President acknowledges receipt of correspondence from the AMWU on Friday 31 August 2018 attaching a draft determination in relation to the tool allowance claim, which also indicates that the Ai Group does not oppose this variation. I also acknowledge receipt of correspondence from Mr Motti stating that the ASMC does not oppose the Award being varied in the terms contained in the draft determination.

I refer to the Directions issued on 20 June 2018, and note that the Deputy President had directed the parties file a report back document reflecting the parties positions, including any issues that are agreed and not agreed. I further note that a document has not been received. It is also noted that at the Mention of 20 June 2018, the parties had indicated that the only outstanding matters that would require arbitration by the Full bench would be the question regarding the interaction between casual loading and piecework loading, and the tool allowance claim.

Accordingly, the Deputy President directs the Parties to provide a document indicating a final consensus position of the parties in relation to all claims in this matter, and that indicates if arbitration is required for any matters still in dispute. The Deputy President also directs the parties to file a draft determination for all agreed matters. The document is to be provided by **close of business on Friday 14 September 2018**.

If there remain issues in dispute, the Deputy President states that the parties should also indicate whether they wish to rely on submissions that have already been filed, or would seek to make new submissions regarding any issue in dispute. If the Parties wish to make a new submission it must be filed by no later than **close of business on Friday 28 September 2018**.

If arbitration is required for any outstanding issues, the Full Bench has proposed a hearing on **Tuesday 16 October 2018** in **Sydney**.

Kind regards,

CALLUM YOUNG

Associate to Deputy President Asbury
