Subject: Draft Determination - AM2017/60

Dear AMOD

I contacted Ross J's Associate earlier today to advise there is likely to be an issue with the Draft Determination which deals with Junior Rates under the GRIA 2020.

Whilst the intent of the Draft Determination is essentially correct, an issue arises because it has not taken into account the impact of the change to the after 6:00PM Monday to Friday penalty for casual employees which changes from the FCPPOA 1 March 2020.

Item 6 of the Draft Determination contains the 145% rate (Column 2 in Table B.3.4) rather than the new rate of 150%.

There appears to be a foot or end note reference to the 145% rate as it currently appears but there is no foot or end note contained in the Draft Determination.

Information supplied for your action as appropriate.

Regards

Ian
