(8) While the parties promote the resolution of disputes at the lowest possible level, where it is considered conducive to achieving resolution of the dispute, the Secretary of the Union, or their nominee and senior management, or their nominee, may enter into the discussion by agreement at any stage of the process. 15. Fatigue Management – Rostered Shiftworkers

The parties support the introduction of agreed fatigue management protocols for rostered shift workers over the term of the Agreement that will allow the development of fatigue management policies that reduce working of excessive hours and prescribe mandated rest breaks.

(1) General

(a) All employees will fulfil their responsibilities to their own shifts as a priority.

(b) The hours of work should not exceed 92 hours in an eight day period commencing at 0800 hours on the first normal rostered day shift of one cycle through to 0800 hours on the first day of the next cycle.

(c) Permitted exception to hours of work may be necessary beyond the normal limitations. These include major, long duration incidents or when there is no alternative but to do so to maintain staffing levels. Any exception to hours of work beyond normal limitations must be approved by the Deputy Commissioner Operations.

(d) If a previously approved standby shift affects the cumulative total of 92 hours in an eight day period, such standbys may need to be rescheduled. However, employees need to take into consideration standby commitments during the eight day period when considering agreeing to call backs and hold backs within that period. In instances where an approved standby may result in these hours being exceeded, the employee needs to raise it with their supervisor so as to review possible management options.

(e) In instances where two full consecutive shifts (24 hours) have been worked, an employee shall have an eight hour break without loss of pay. This 8 hour break may lead to that employee returning to work after their normal commencement time necessitating a short term hold back until that employee returns to work.
(f) At the commencement of shift all staff are to muster or make their presence known to their Supervisor who will complete the staffing in SAMS. Priority for reliefs will be to fill staff shortages at the station they are currently at.

(g) The parties agree to work constructively to assess rostered patterns of work to support improved safety outcomes.

(2) Call Back Arrangements

(a) In support of fatigue management, staffing levels are to be primarily maintained by call backs of off duty employees. On no occasion, however, unless expressly approved by the Deputy Commissioner Operations, are employees to enter into a work pattern that would lead them being committed to 3 consecutive shifts.

(b) An employee must report for duty ready, willing and able to work.

(c) Where an off duty employee is recalled to work, the following applies:

(i) When a call back is pre-arranged (i.e. a vacancy is known in advance and a call back arranged so as to report for work at the commencement of the shift), or the call back attends work at the required station within 1 hour of receiving the call back request, an additional 2 hours overtime will be paid to that employee.

(ii) Where a call back does not lead into a normal rostered shift or an approved standby shift, motor vehicle allowance (cents per kilometre as per State Government allowance) will be paid for each kilometre between an employee’s home and required work station and return.

(iii) Where the call back leads into a normal rostered shift or an approved standby shift at the same station, motor vehicle allowance (cents per kilometre as per State Government allowance) will be paid for each kilometre between an employee’s home and required work station.

(iv) Where the call back is to a station other than the one where the employee’s Personal Protective Clothing (PPC) is at, and then leads into a normal rostered shift or standby shift at another location, motor vehicle allowance (cents per kilometre as per State Government allowance) will be paid for each kilometre between that employee’s home and required work station and then travel to the other station for the second shift.

(v) Payment under (ii), (iii) and (iv) above is subject to verification that the travel between the Recall Station and the Home Station actually occurred.

(vi) Standard meal allowances will apply to call backs.

(3) Hold Back Arrangements

(a) An employee completing a shift may hold back for up to 4 hours to allow for the arrival of a relief employee from another station, or for the recall and
arrival to station of the off duty employee (call back), or a decision is made by the Superintendent on how the staff shortage is to be managed.

(b) Where the hold back extends for more than 15 minutes an employee will be paid a minimum of 2 hours pay at overtime rates.

(c) An employee may not hold back if they have previously worked 2 consecutive shifts, except for a short term hold back due to an incident, or when it has been confirmed that a relief or call back employee is available for that shortage, and therefore in such instance the short term hold back will not exceed 4 hours.

(d) An employee cannot hold back for more than 4 hours if it would lead into 3 consecutive shifts e.g. an approved stand by commitment. Full shift holdbacks are not permitted between an employee's rostered day shifts (i.e. Night Shift Hold back) or an employee's rostered night shifts (i.e. a Day Shift Hold Back), unless a stand by for either of the second rostered shifts has been previously approved, and therefore not lead into 3 consecutive shifts.

(iv) Payment for a part time employee proceeding on paid parental leave is to be determined according to an average of the hours worked by the employee over the preceding twelve months; or their ordinary working hours at the time of commencement of paid parental leave, whichever is the greater.

(v) An employee may elect to receive pay in advance for the period of paid parental leave at the time the parental leave commences, or may elect to be paid the entitlement on a weekly basis over the period of the paid parental leave.

The Employer shall pay the fee for any such examination. Where an employee is deemed to be unfit to work in her present position, the provisions of sub clause (6) - Modification of Duties or Transfer to a Safe Job may apply.

Such paid parental leave cannot be taken concurrently with paid personal leave taken in accordance with sub clause (4) of this clause.

(k) (i) An employee who commenced paid parental leave prior to her child's birth and:

• who is incapacitated following the birth of her child and is therefore incapable of being its primary care giver; or

- If the mother resumes paid parental leave in accordance with this sub clause, her partner must cease paid parental leave.

(iv) The provisions of sub clause (3)(k)(iii) do not apply where an employee commenced paid parental leave prior to her child’s birth but, due to her child’s hospitalisation, neither the employee or her partner are able to be their child’s primary care giver. The employee may, however, remain on paid parental leave in accordance with the provisions of sub clause (3)(k)(i).

The employee may take any paid leave entitlement to which the employee is entitled in lieu of this leave.

(ii) If an application for parental leave has been granted for the adoption of a child, which does not eventuate, then the period of paid or unpaid parental leave is terminated. (c) Extended unpaid parental leave

(i) Subject to all other leave entitlements being exhausted, an employee shall be entitled to apply for leave without pay following parental leave ("extended unpaid parental leave") to extend their leave by up to two years. The Employer is to agree to a request for extended unpaid parental leave unless:

- having considered the employee's circumstances, the Employer is not satisfied that the request is genuinely based on the employee's parental responsibilities; or

- there are grounds to refuse the request relating to its adverse effect on the Employer's business and those grounds would satisfy a reasonable person. These grounds might include, but are not limited to, cost; lack of adequate replacement staff; loss of efficiency; impact on the production or delivery of products or services by the Employer.

(ii) The Employer is to give the employee written notice of the Employer's decision on a request for extended unpaid parental leave under sub clause (4)(c). If the request is refused, the notice is to set out the reasons for the refusal.

(iii) An employee who believes their request for extended unpaid parental leave under sub clause (4)(c) has been unreasonably refused may seek to enforce it as a minimum condition of employment and the onus will be on the Employer to demonstrate that the refusal was justified in the circumstances.
(iv) Any period of extended unpaid parental leave must be applied for and approved in advance and will be granted on a year-by-year basis. Where both partners work for the Employer the total combined period of extended unpaid parental leave shall not exceed two years.

(a) An employee shall give not less than four weeks’ notice in writing to the Employer of the date the employee proposes to commence paid or unpaid parental leave, stating the period of leave to be taken.

(b) An employee seeking to adopt a child shall not be in breach of sub clause (5)(a) by failing to give the required period of notice if such failure is due to the requirement of the adoption agency to accept earlier or later placement of a child, or other compelling circumstances.

(c) An employee proceeding on parental leave may elect to take a shorter period of parental leave to that provided by this clause and may at any time during that period elect to reduce or extend the period stated in the original application, provided four weeks written notice is provided.

(6) Modification of Duties or Transfer to a Safe Job

- vary part time work arrangements made under sub clause (6)(b)(ii); or

- revert to full time employment during the employee's pregnancy.

(v) An employee reverting to full time employment in accordance with sub clause (6)(a)(iv) will be entitled to the same position or a position equivalent in pay, conditions and status and commensurate with the employee's skill and abilities as the substantive position held immediately prior to undertaking part time employment.

(b) If an employee gives her Employer a medical certificate from a medical practitioner, or some other form of evidence that would satisfy a reasonable person, and it contains a statement to the effect that the employee is fit to work, but that it is inadvisable for her to continue in her present position for a stated period because of:

(i) illness, or risks, arising out of her pregnancy; or

(ii) hazards connected with that position;

then the Employer must modify the duties of the position or alternatively transfer the employee to a safe job at the same classification level for the period during which she is unable to continue in her present position.

(c) If an employee's Employer does not think it to be reasonably practicable to modify the duties of the position or transfer the employee to a safe job, the employee is entitled to be absent from the workplace on full pay for the period during which she is unable to continue in her present position.

(d) An entitlement to be absent from the workplace on full pay is in addition to any leave entitlement the employee has and the employee is to be paid the amount she would reasonably have expected to be paid if she had worked during that period. This entitlement also applies to eligible casual employees.

(e) An entitlement to be absent from the workplace on full pay ends at the earliest of whichever of the following times is applicable:

49. Community Centred Emergency Management

The Department of Fire and Emergency Services’ Vision and Mission are:

Vision    A Safer Community

Mission    In partnership with the people of Western Australia to: Improve community safety practices; and provide timely, quality and effective emergency services

The Vision and Mission aim to meet the State Government’s desired outcomes in meeting community needs and will be achieved through close involvement of the community.

To facilitate this approach, DFES has introduced a concept known as community centred emergency management. This is where communities are encouraged to take greater responsibility for their own safety, be more self reliant and better prepared in case of emergencies.

The primary objective of community centered emergency management is to minimise the impact of emergencies on the community. It has four principle components:

Prevention    To provide a range of prevention services to increase community awareness of hazards and involvement in minimising their impact.

Preparedness    To provide and maintain appropriate and adequate infrastructure, equipment, skilled personnel, plans and programs in preparation for emergencies. To support the community in its own preparations for emergencies.

Response    To ensure rapid and comprehensive response to emergencies, to contain and minimise the impact of hazards and to perform rescues. To support the community in its own response to emergencies.

Recovery    To assist the community, employees and volunteers affected by major emergencies to recover effectively and efficiently.

This Agreement supports this philosophy and will require all parties to participate in the development and implementation of DFES strategies and initiatives to continually seek to improve processes and enhance service delivery to the community.

50. Community Safety Plans

(1) In Western Australian Fire Service Certified Agreements and Enterprise Bargaining Agreements since 1998 there has been a strong focus on fire fighters working closely with their community in order to understand the risks and implement prevention programs to minimise the likelihood of loss through fire and other emergencies. Accordingly, the parties are committed to maintaining the focus on the prevention of fire and other emergencies, as well as lessening their effects when they occur.

(2) It is understood that this will continue to be done in a systematic way through the operation of Community Safety Plans implemented under sub clause 33.4.1 of the 2004 Agreement. Community Safety Plans will detail initiatives and strategies to be
implemented in order to achieve objectives linked to the prevention and lessening of fire and other emergencies.

(3) Each platoon will be responsible for the development and implementation of a Community Safety Plan in order to account for the different needs of their station areas. Community Safety Plans will specify Plan objectives, initiatives and the actions, responsibilities, and timeframes for the implementation of those initiatives.

(4) In order to monitor the effectiveness of Community Safety activities undertaken, stations will be required to report on the achievement of outcomes in relation to Plan objectives.

(5) The Employer will provide training to support the development and implementation of Community Safety Plans.

(6) Community Safety Plans may include any combination of the following initiatives:

- Promotion of general fire safety practices, including smoke alarm installation;
- Promotion of fire and other safety hazards information to schools and community groups;
- Collaboration with interest groups to establish and maintain bushland preservation policies to counter potential for and impact of fire and other hazards;
- Continued involvement with local governments and interest groups to maintain and enhance fire and other hazards prevention strategies in urban bushland areas;
- Active involvement with communities in high risk bushfire areas to promote and assist with implementation of sustainable fire prevention and defence strategies for residential and industrial areas and public facilities (e.g. schools, hospitals);
- Active involvement with intervention approaches, (meeting with juveniles and parents), aimed at reducing juvenile fire lighting;
- Increased involvement with water supply aspects of local urban planning schemes and development;
- Work with building owners to educate and consequently reduce the number of false alarm calls; and
- Enhancement of the fire investigation process.

(7) The examples specified at sub clause (6) are not exhaustive, as stations may identify additional issues under the broad headings relevant to their area.

Reference Enterprise Bargaining Agreement 2006

It is imperative that DFES maintains a skilled and competent workforce that is flexible and adaptable to a changing environment. Training courses and exercises are important to build and maintain skills and competence.

During the life of the Agreement, the parties will continue the development and implementation commenced under the previous Agreement of a program of regular exercises
for all response functions. The exercises will assist in ensuring highly competent team to respond to any incidents that occur.

52. Experience Record

Reference Enterprise Bargaining Agreement 2006

Fire fighters experience a range of duties and incidents during their career. It is important that records are kept of levels of experience and competence attained so that clear information can be provided to promotional selection panels.

During the life of the Agreement, the parties will continue the development and implementation commenced under the previous Agreement of an agreed Personal Development Log document for recording work experiences for the purposes of personal development and promotional opportunities.

53. Enabling Mechanism

Reference Enterprise Agreement 2 – 2000

To achieve the intent will require the respective posting of thirty one (31) FTE positions to the designated country fire stations and to a new fire station at Mandurah.

It is necessary to consider the crewing requirement from a service wide perspective that is cognisant of all existing emergency incident response crews. The application of an appropriate operational manning, commensurate with the identified local risks as described above, requires increased numbers of FTE positions at all of the cited locations.

The aim is to provide an appropriate response to various incidents. All responses will be formulated within Standing Operating Procedures that will establish sufficient, appropriate resources for response.

Currently at Perth Fire Station, aside from aerials and other specialist appliances, there are two responding fire fighting pumps. These are known as Perth first and Perth second. They respond within the Perth City area, in the main. Perth second is utilised in a similar manner to other second pumps at outlying stations.

Both Perth first and second are crewed by a Station Officer and five (5) Firefighters. In accord with the minimum safety standard it is proposed that these two appliances be crewed with a Station Officer and three (3) Firefighters.

This equates to four (4) FTE positions on four shifts making sixteen (16) positions available for re-allocation. Considering that one (1) additional FTE is required for every four (4) positions to complete annual leave, long service leave and sick leave this initiative will make available a total of twenty FTE positions, i.e. sixteen (16) firefighters and four (4) relief Firefighters totaling 20 FTE positions i.e. 16+4=20.

At Perth Fire Station, on each of the four shifts, there is a Firefighter position responsible for delivery of fire service equipment (utility driver) on a twenty four-hour a day basis. A second Firefighter position is responsible for reception and security (box duties) at Perth Central. This position is currently used on occasion for both workers compensation and sick leave rehabilitation to allow for an early return to work.
On the restructuring of this position a rostered shift work alternative rehabilitation position will be identified.

Both of these functions can be completed in other ways that are more efficient particularly since some of the existing functions of these two positions are not required at all.

This initiative makes available two (2) FTE positions per shift, multiplied by the four shifts sub-totals eight (8) positions. When the leave component of two (2) for eight is factored in this initiative makes available a total of ten (10) FTE positions. i.e. 8+2=10

The combination of the Perth first and second pump initiative and the two defined ancillary functions carried out Perth Central Fire Station identifies a total of thirty (30) FTE positions. These positions will be reassigned. Note that thirty one (31) positions would be physically relocated to country stations and Mandurah.

### Salary Packaging

1. An employee may, by agreement with the Employer, enter into a salary packaging arrangement in accordance with the salary packaging arrangements offered by the Employer.

2. Salary packaging is an arrangement whereby the entitlements under this Agreement, contributing toward the Total Employment Cost (TEC) (as defined) of an employee, can be reduced by and substituted with another, or other benefits.

3. For the purpose of this clause, TEC is defined as the cost of salary and other benefits aggregated to a total figure or TEC, less the cost of Compulsory Employer Superannuation Guarantee contributions.

   The TEC for the purposes of salary packaging is calculated by adding:

   (a) the base salary;

   (b) other cash allowances, e.g. annual leave loading;

   (c) non cash benefits, e.g. superannuation, motor vehicles;

   (d) any Fringe Benefit Tax liabilities currently paid; and

   (e) any variable components, e.g. performance based incentives.

4. Where the employee enters into a salary packaging arrangement they will be required to enter into a separate written agreement with the Employer that sets out the terms and conditions of the arrangement.

5. The salary packaging arrangement must be cost neutral in relation to the total cost to the Employer.

6. The salary packaging arrangement must comply with relevant taxation laws and the Employer will not be liable for additional tax, penalties or other costs payable or which may become payable to the employee.

7. In the event of any increase or additional payments of tax or penalties associated with the employment of the employee or the provision of Employer benefits under the
salary packaging agreement, such tax, penalties and any other costs shall be borne by the employee.

(8) In the event of significant increases in Fringe Benefit Tax liability or administrative costs relating to the arrangements under this clause, the employee may vary or cancel a salary packaging arrangement.

(9) The cancellation of salary packaging will not cancel or otherwise affect the operation of this Agreement.

(10) An Employer will not unreasonably withhold agreement to salary package on request from an employee.

(11) The Dispute Settlement Procedures contained in this Agreement will be used to resolve any dispute arising from the operations of this clause.

55. Study Assistance

(1) An employee may be granted time off with pay for study purposes and fees assistance subject to the discretion of the Employer.

Approval of time off and fees assistance will be subject to:

(a) the course being of benefit to the organisation;
(b) the course being relevant to current needs;
(c) the course being relevant to the position occupied by the employee and/or the employee's future in DFES;
(d) the employee making satisfactory progress with his/her studies; and
(e) the employee demonstrating personal commitment to learning and studying by undertaking an acceptable formal study load in his/her own time and/or financial contribution.

(2) Notwithstanding the above, the granting of study leave and fees assistance will be subject to operational requirements and at the discretion of the Employer.

56. Improved Administrative Practices

Corporate Credit Cards will be issued to Stations Officers in lieu of petty cash being held on station. Any extension to the use of Credit Cards will not be implemented without prior consultation with the Union. Where there is no agreement either party can refer the matter/s in dispute to the WAIRC for conciliation or arbitration.

57. District Officer Transfer and Rotation Program Policy

The parties agree to complete a review of the District Officer Transfer and Rotation Program and develop policy by 31 December 2011, to be included in DFES Transfer Policy. Where there is no agreement either party can refer the matter/s in dispute to the WAIRC for conciliation or arbitration.
58. Station Management

The parties embrace the introduction of a station management system. The automation and upgrading of processes that are currently being undertaken through a variety of means is essential. It will enable the collection of real time data and facilitate improved management of both time and resources leading to the achievement of greater efficiency by both management and employees. Due to the size of the project this will be an ongoing process and implementation of the specific initiatives will be by agreement.

59. Movement of Core Staff

During the life of the agreement, the parties will review the core staff policy and develop work practice initiatives to provide maximum flexibility for the movement of all staff between stations for training and operational needs. Where there is no agreement either party can refer the matter/s in dispute to the WAIRC for conciliation or arbitration.

60. Fire Fighter Deployment

During the first twelve months of the agreement, the parties will commit to developing provisions for fire fighter deployment interstate, intrastate and overseas. Where there is no agreement either party can refer the matter/s in dispute to the WAIRC for conciliation or arbitration.

61. Work Value Case

DFES has no objection to the Union making an application to amend the Award in order that it can pursue a work value case in accordance with the wage fixation principles on behalf of Station Officers.

62. Rental Assistance

The Employer, in the 2011 review of the Remote Housing Policy, will review and consider the ability of non-managerial staff to apply for an extension of rental assistance beyond an initial twelve month period.

63. Rehabilitation of Injured Employees

Reference Enterprise Agreement 4 – 2004

The appropriate deployment of injured employees into meaningful employment whilst undertaking rehabilitation program is critical in achieving positive rehabilitation outcomes.

To assist in the placement of injured operational staff to appropriate rehabilitation positions the parties agree that:

- one operational rostered shiftwork position per shift; and
- one non-operational rostered shiftwork position per shift;

identified by the Employer subject to the medical constraints of the injured employee will be available.

Preference for the positions will go to employees who were injured in the course of their employment with DFES.
If an injured employee cannot be deployed in the operational rostered shiftwork position or non-operational rostered shiftwork position due to the nature of their injury or because it is being filled by another injured employee, meaningful work will be provided on a non-rostered shiftwork arrangement.

### 64. Operational Efficiency Adjustments

Reference WA Fire Service Enterprise Bargaining Agreement 2008

(1) The Operational Efficiency Adjustment (OEA) is to be paid to all firefighting classifications and Communications Systems Officers in recognition of improved efficiencies expected to flow from the introduction of the dispersed relieving program and other key provisions sought by DFES.

(2) Specifically, the OEA payments will apply as follows:

(a) 1.2% from 1 January 2009 will be payable in recognition of:
   (i) The new Dispersed Relieving System having come into effect;
   (ii) Staff movements to have commenced in December 2008; and
   (iii) The reduction in the period of notice required to change shifts from 14 days to 8 days.

(b) 1.0% from 1 January 2010 will be payable in recognition of:
   (i) Completion of staff movements;
   (ii) Completion of SAMS training and implementation;
   (iii) Staff will be using SAMS to effect transfers and for filling short term and long term absences;
   (iv) Cessation of cash payment of allowances on station;
   (v) Overtime claims completed on-line;
   (vi) Meal and traveling allowances claims will be completed on-line;
   (vii) Cessation of paper pay slips - pay slips will be provided electronically; and
   (viii) Record of work completed on-line.

(3) This adjustment is for all purposes and forms part of the total rate of pay.

(4) This adjustment has been included in the rates of pay detailed in Schedule 1 of this Agreement.
65. **Advanced First Aid Allowance**

Reference WA Fire Service Enterprise Bargaining Agreement 2008

(1) The Advanced First Aid Allowance (AFAA) payable to firefighting classifications in the Previous Agreement is included in the total rate of pay effective from the first pay period on or after the date of registration.

(2) This allowance is an all purpose allowance and forms part of the total rate of pay.

(3) This allowance has been included in the rates of pay detailed in Schedule 1 of this Agreement.

66. **Accident Pay and Medical Benefits**

Reference Enterprise Bargaining Agreement 2006

The parties agree to undertake a review of the *Fire Brigade Regulations 1943* in relation to payment of accident pay and medical benefits, pursuant to the provisions of the *Workers' Compensation and Injury Management Act 1981*.

12.2 Boundaries Effective 1 July 2011

12.2.1 Boundary

For the purposes of Schedule H - District Allowance Map as at 1 July 2011, the boundaries are as defined by clause 11.2.

12.2.2 Exclusion zone

The boundary of the exclusion zone shall be as described hereunder and as delineated on the map in Schedule H - District Allowance Map as at 1 July 2011 of this General Agreement:

(i) The exclusion zone is the area within a line from the coast that follows the boundary between the Mid West and Wheatbelt Regional Development Commission districts until the boundary reaches the western side of Lake Moore; thence a line to a point south east at the junction of lat 32 and long 119; thence south along long 119 to the coast.

12.2.3 Towns within the exclusion zone, and therefore ineligible for District Allowance, may be considered for future District Allowance payments by agreement between the parties. The parties will agree on the process to be applied in consideration of the future eligibility of such towns.

13 FUTURE SETTING AND ADJUSTMENT OF DISTRICT ALLOWANCE RATES

13.1 From 1 July 2011, District Allowance rates shall be calculated using three components:

(i) cost of living;
(ii) climate; and
(iii) isolation.
13.1.1 Cost of Living

A price index to measure cost of living is the Regional Price Index (RPI) and such indexes will be developed in early 2011 and 2013. The components that will be surveyed are as stated in Schedule I of this General Agreement. The parties shall consult on the towns to be included as part of the survey.

The calculations for the cost of living effective from 1 July 2011 and 2013 shall be based on the RPIs developed in these years. The cost of living will be calculated by multiplying the RPIs with the relevant annual salary of a Public Service General Agreement 2008, or as replaced, classification level 1.1 effective on 1 July in each year.

The cost of living component used in the aggregate District Allowance rate will rise and fall according to the actual calculation, and will not be maintained at the previous amount if there is a reduction.

13.1.2 Isolation

The isolation component for the District Allowance rates effective 1 July 2010 is calculated by multiplying $806 by a quotient derived from the division of the Accessibility/Remoteness Index of Australia (ARIA+) index value for a specific location or area by the maximum ARIA + index value (15).

Future annual calculations of the isolation component will be made on 1 July each year using the monetary value of the previous year adjusted by the annual increase in the Perth Consumer Price Index March to March as issued by the Australian Bureau of Statistics.

13.1.3 Climate

The climate component for the District Allowance rates effective 1 July 2010 is calculated by multiplying $806 by a quotient derived from the division of the Bureau of Meteorology Relative Strain Index (RSI) value for a specific location or area less 10 by the maximum RSI index value less 10 (200-10=190).

Future annual calculations of the climate component will be made on 1 July each year using the monetary value of the previous year adjusted by the annual increase in the Perth Consumer Price Index March to March as issued by the Australian Bureau of Statistics.

13.2 In 2012, the cost of living component will be increased using the 2011 RPI and the current Public Service General Agreement 2008, or as replaced, level 1.1 salary as at 1 July 2012. The isolation and climate factors shall be increased on 1 July 2012 by the annual increase in the Perth Consumer Price Index March to March as issued by the Australian Bureau of Statistics.
14 PHASING OUT OF NORTH-WEST CHILD ALLOWANCE

14.1 The parties agree that the District Allowance increases to apply from 1 July 2010 will absorb the North West Child Allowance ($100 per child, per annum up to a maximum of $400 per annum) paid administratively by the respondents in Schedule A and/or as provided for in any District Allowance provision contained in any Award or Agreement to which the named respondents in Schedule A and B to this General Agreement are bound.

14.2 As the North West Child Allowance is paid per calendar year, the North West Child Allowance will cease from 1 January 2011.

15 CONSULTATION

15.1 The parties agree to examine the issues that will ensure that the cost of living in the small, isolated communities is properly reflected in the Goldfields-Esperance, Kimberley and Pilbara Regions.

15.2 The parties agree to consult on the content and formulation of the Regional Price Index Survey.

15.3 The parties agree to consult on the process to be applied in consideration of the future eligibility of towns currently in the exclusion zone.

15.4 Unions party to this agreement may appoint a representative or representatives for the purposes of conducting consultations, discussions or negotiations on their behalf.

16 DISPUTE SETTLEMENT PROCEDURE

16.1 Any questions, difficulties or disputes arising in the course of the employment of employees covered by this General Agreement shall be dealt with in accordance with this clause.

16.2 The employee/s and the manager with whom the dispute has arisen shall discuss the matter and attempt to find a satisfactory solution, within three working days. An employee may be accompanied by a Union representative.

16.3 If the dispute cannot be resolved at this level, the matter shall be referred to and be discussed with the relevant manager’s superior and an attempt made to find a satisfactory solution, within a further three working days. An employee may be accompanied by a Union representative.

16.4 If the dispute is still not resolved, it may be referred by the employee/s or Union representative to the Employer or his/her nominee.

16.5 Where the dispute cannot be resolved within five working days of the Union representatives’ referral of the dispute to the Employer or his/her nominee, either party may refer the matter to the WAIRC.

16.6 The period for resolving a dispute may be extended by agreement between the parties.

16.7 At all stages of the procedure the employee may be accompanied by a Union representative.

1.0 DEFINITIONS

Adjusted Day Off: For the purposes of this agreement an Adjusted Day Off (ADO) shall be a day off work and shall be taken to reduce excess hours, and shall be of eight (8) hours duration.

Excess Hours: Hours that exceed 160 in any 4 week period or 320 in any 8 week period.

Planned Hours: Hours of work planned and agreed between the employee and the supervisor.

Overtime Hours: Approved hours worked outside the planned hours.

2.0 320/8 ARRANGEMENTS FOR NON-ROSTERED SHIFT WORK

2.1 All employees under this arrangement are required to work 320 hours over an 8 week cycle. These hours are paid at the employee’s ordinary weekly wage rate.

2.2 Work can take place at any time in a 24 hour day. The arrangements require the employee to work up to a maximum of 4 weekend days and 14 nights in an 8 week cycle.

2.3 The 320 hours exclude travel time to and from the employee’s normal place of work (determined by DFES) and their normal residence.

2.4 There are no core or fixed hours under these arrangements, such as 0800-1700hrs Monday to Friday. This means that, subject to supervisor approval, planned hours can be allocated to any time of any day of the week, including public holidays. Except in the case of incidents, the employee will not schedule more than 12 hours in any day. Work outside planned hours unless agreed between the supervisor and the employee will be paid as overtime.

2.5 Where approved overtime is claimed, the time worked cannot be credited to hours worked in an 8 week cycle and must be recorded.

3.0 WORK PLANS AND RECORDING OF HOURS

3.1 Employees are required to submit an 8 week work plan in advance to their supervisor for approval. This will detail the activities they intend to complete, planned hours of work and if necessary detail time off to eliminate excess hours for the period. All work plans will be filed for record and audit purposes. These plans will be reviewed after 4 weeks to assess if an adjustment needs to be made to balance the hours so that excessive planned hours are not carried forward.

3.2 If a non-rostered shift work period does not complete an 8 week cycle, a pro-rata basis can be used to calculate working hours and excess hours.
4.0 FATIGUE MANAGEMENT

4.1 Employees and supervisors need to ensure fatigue is managed by not working excessive hours. In the case of incidents employees may work a maximum of 18 hours followed by an 8 hour break. No more than 84 hours should be worked in a 7 day period.

From time to time in emergency situations it may be necessary to work beyond 18 hours and, the Superintendent may approve work to 24 hours.

4.2 Where an employee resumes work after having had an eight (8) hour break, overtime will be paid from the time of return to work to the commencement of the employee's planned hours, the rate of payment will then revert to ordinary rates until such time as the employee has concluded the planned shift.

4.3 If the employee concludes work during a planned shift after an incident call out such employee may need to take a break so as to manage fatigue and in such cases, be paid the remainder of the planned shift at ordinary rates.

4.4 Where an employee resumes work, without having an eight (8) hour break, overtime will be paid from the time of return until they are released from duty, even if time worked goes into planned working hours.

4.5 Where an employee resumes work without having an eight (8) hour break, employees should not work for longer than eight (8) hours after returning to duty.

5.0 EXCESS HOURS

5.1 The intent of this arrangement is for employees and supervisors to plan work time and manage the number of hours worked. It is recognised that in some instances additional hours may need to be worked and the employee and the supervisor may agree to work these hours at ordinary rates and take the time off at some agreed time in the 320/8 cycle.

5.2 After 4 weeks where an employee has accumulated excess hours they must review their work schedule in consultation with their supervisor, to address the outstanding balance of hours. The employee will have to produce the endorsed 8 week work plan and diarised hours worked in addition to that detailed in the plan for discussion with their supervisor. Action taken to address the outstanding balance must be endorsed by the supervisor and filed for record and audit purposes.

5.3 Excess hours accumulated in a 4 week period can be carried over into the next 4 weeks of the cycle with approval of the supervisor. If after the 8 week cycle the employee still has excess hours then such hours will be carried forward to the next 8 week cycle. In this event, the employee and the Supervisor will develop a plan of work to facilitate the reduction of the excess hours within the next 4 weeks. The hours carried forward will not be paid as overtime.

6.0 ADJUSTED DAYS OFF (ADO)

6.1 If an employee has accumulated sufficient hours (8) an ADO may be requested. In order to take an ADO (inclusive of public holidays) employees need to obtain approval from their supervisor. This process will be undertaken when the 4 week work plan is submitted for discussion and approval.
6.2 An employee who is on-call cannot have ADO, unless a swap is arranged with a
colleague or the supervisor has given approval.

6.3 In the case where the supervisor has given approval for an ADO and the employee is
recalled to operational duty, overtime will be paid.

6.4 Adjusted Days Off are not to be used to reduce accumulated overtime hours.

7.0 NOT COMMENCING OR FINISHING WORK AT NORMAL PLACE OF WORK

For travel to be considered to form part of planned working hours, an employee
needs to commence work at a location other than their normal place of work. The
component of time that exceeds their normal travel time can be credited to the 320/8
total.

8.0 OVERTIME

A recall to duty will be at the direction of the Communications Centre, Regional
Operations Centre or the employee’s supervisor. Employees who attend incidents of
their own volition will not be paid overtime.
